

# *Our Great Compassionate God*

Job 38:39-41 and Job 39:1-30

*By Pastor David Kuntz*

**Introduction:** In chapter 39 the Lord parades a carnival of animals before Job's mind. But what was the purpose of the second lesson? The point is being made in these verses that God is compassionate to the animals. And if you follow the logic you will see that if God cares for the animals, how much more He must care about man. This passage tackles an age-old human struggle in which man sometimes feels like no man cares for his soul. Tonight, I'd like to show you just what a great and compassionate God you have and serve as we look at His animal creation.
